GLOBAL PHYSICIAN EDUCATION

Earn a Certificate

Our certifications are recognized by state licensing boards to meet statutory requirements for performing IV Nutrient Therapy and for Continuing Education credit.

IIVNTP Certification in IV Nutrient Therapy

The IV Nutrient Therapy certification requires attendance at our 4-day Fundamentals and Clinical Applications of IV Nutrient Therapies seminar. There are two evaluations: firstly a multiple choice test covering the information presented during the first two days; the second evaluation is a practical examination. In order to pass the practical, the attendee must successfully complete ten supervised IV starts.

IIVNTP Certification in IV Chelation Therapy

Certification in IV Chelation Therapy requires attendance at our 2-day Heavy Metal Assessment and Treatment from A-Z: Clinical Chelation: EDTA, DMPS, DMSA and Complementary Treatments (this seminar can run from 2-2.5 days depending on scheduling). The evaluation for this seminar is a multiple choice test covering all information presented during the seminar.
