IV/IM THERAPY

Custom Medications. Optimal Outcomes.

ENHANCING WELLNESS WITH IV THERAPY

Intravenous and intramuscular fluids offer a direct method of delivery by administering essential vitamins, nutrients, or therapies directly into the bloodstream for 100% absorption—facilitating the body's natural healing response.

SUPPORT FOR YOUR PRACTICE

- Clinical guides and Rx templates
- Patient targeted marketing materials

Innovation Compounding has over 100 IV/IM therapy combinations possible for nutritional support.

Our pre-assembled, multi-dose kits are cost-effective and convenient to order. And, you can expect expert-level assistance and consultation for dosing, osmolarity, and protocol support from our Doctor of Pharmacy clinical team.

WHO SHOULD OFFER IV THERAPY?

- Functional Medicine Clinicians
- Integrated Medicine Clinicians
